

# Jennifer Smith's Homemade Peach Ice Cream

This was the recipe of the mom of a childhood friend who gave me the recipe close to 50 years ago. Since it does not have eggs and you don't have to make a custard, it is really easy!

6–8 peaches, peeled and chopped

- 1 quart milk
- 1/2 pint whipping cream
- 1 can sweetened condensed milk
- 1/2 cup sugar
- Vanilla
- Mix all together. Freeze in ice cream freezer.
- Enjoy!
